

Assignment 10: ASTR/PTYS 578

Section 5 and completion of the proposal

DUE : April 22nd 2026 by NOON on D2L . This assignment will be graded out of 100

FILENAME: LastName_Assignment10 (Word doc)

1) You MUST utilize the HST/JWST Template. Follow Dual Anonymous Standards.

2) **Do not include your name in the document itself (filename only)**

3) Flush out Section 4 from your proposal

Not to Exceed ½ of a page, 12 pt font - remember the whole science justification must be less than 3 pages, including the figure, excluding bibliography and abstract/title

Create a heading that states the broader impact/importance of the solution. Headings should be declarative statements that convey the high-level point of the section.

Paragraph 1: Importance of the Products to the Subfield

- a) One sentence that states the **high level** importance of the proposed products of your study to your **subfield** .
- b) One sentence that explains that these products will advance the subfield.

Paragraph 2: Urgency, Suitability & Broader Impact

- a) One sentence: Urgency. Why now? This program is timely/must be done now.
- b) One sentence: Suitability. How this program relates to the funding call.
- c) One sentence: Nuanced conclusion → The broader impact. State that this study will increase the **legacy value** of the facility/agency by:
 - Advancing **other subfields** through these observations (GO) or data analysis/code/simulations (AR)

And/OR

- Creating products that **serve the community** at large?

Include appropriate references and update the bibliography.

4) Include the ENTIRE proposal in your submission.

- Abstract + Title on a separate page before the Science Justification
- Include Section 1, Section 2, Section 3 in your submission for the Science Justification – put the Section 4 text at the end.
- **Each section & abstract must follow the guidelines of Assignments 5-10**
- Science Justification (Sections 1-4 + 1 figure) must be **3 PAGES MAX** (Note Figure caption can be in 11pt font).
- Bibliography should be a separate page at the end of the document.
