

Mock Panel Review

Assignment 11: Grade All Proposals on the Day you Are Assigned Primary

Panel Review Grading Template

Grades: DUE Apr 27th by NOON on D2L under Assignment 11

Read **all proposals** in your panel the day you are assigned to be PRIMARY.

Spend NO MORE than 15 minutes per proposal

The point is that in a real panel you will need to read many (>70) proposals and won't have time to go through each in detail.

You should not have to read your own proposal - let me know if that happens (means I messed something up)

Grading Rubric

(Following HST)

No decimal places.

“HST” can be any facility

Grade	Impact within the sub-field	Out-of-field impact	Suitability
1	Potential for transformative results.	Transformative implications for one or more other sub-fields.	Science goals can only be achieved by observational or theoretical analysis of HST data. Deliverables critically align with agency mission
2	Potential for major advancement.	Major implications for one or more other sub-fields.	Analysis of HST data offers major advantages over data from other facilities. Deliverables align strongly, but not critical to agency mission
3	Potential for moderate advancement.	Some implications for one or more other sub-fields.	Analysis of HST data offers some advantages over data from other facilities. Deliverables align reasonably with agency mission
4	Potential for minor advancement.	Minor impacts on other sub-fields.	Analysis of HST data offers minor advantages over data from other facilities. Deliverables align somewhat with agency mission
5	Limited potential for advancing the field.	Little or no impact for other sub-fields.	Analysis of HST data offers little or no advantage over other facilities or the advantages of analysing HST data are unclear. Deliverables are not aligned or connection is unclear to agency mission

Apr 28

Prop. 1	Primary	Emily	Secondary	Carter
Prop. 2	Primary	Carter	Secondary	Emily
Prop. 3	Primary	Maddy C.	Secondary	Chen-Yu
Prop. 4	Primary	Chen-Yu	Secondary	Maddy C.
Prop. 5	Primary	Kayla	Secondary	Cole
Prop. 6	Primary	Cole	Secondary	Kayla

Apr 30

Prop 7	Primary	Yichen	Secondary	Lily
Prop 8	Primary	Devin	Secondary	Yichen
Prop 9	Primary	Rafael	Secondary	Kylie
Prop 10	Primary	Kylie	Secondary	Rafael
Prop 11	Primary	Alena	Secondary	Sophie
Prop 12	Primary	Sophie	Secondary	Alena
Prop 13	Primary	Neev	Secondary	Ruby

May 5

Prop 14	Primary	Madi V.	Secondary	Devin
Prop 15	Primary	Lily	Secondary	Madi V.
Prop 16	Primary	Lipika	Secondary	Nick
Prop 17	Primary	Nick	Secondary	Lipika
Prop 18	Primary	Tyler	Secondary	Aaron
Prop 19	Primary	Aaron	Secondary	Tyler
Prop 20	Primary	Ruby	Secondary	Neev

Assignment 12: Panel Reviews

PART A). For the day of the Panel Review where you are Primary or Secondary:

Step 1) Summarize your assigned proposals answering each of the following (you can elaborate)

- The proposal aims to [XX observe/model/build code XX] of [XX target XX] using [XX Method/Facility XX] .
- The proposal aims to solve [XX PROBLEM XX].
- The deliverables of this program are [XX].

- The stated importance of the proposal/problem to the subfield is [XX].
- The stated broader impact of the proposal/deliverables is [XX].

Step 2) Summarize your opinion of the Strengths and Weaknesses of the proposal under the 3 primary grading categories:

Suitability:

- Is the proposed plan clear and achievable?
- Relevance to facility/agency:
 - o Either: Is it clear and convincing why the facility was chosen to achieve the science goals? Can it be done with another facility? [e.g. for anything in space, can it be done from the ground?]
 - o Or: Is the link with the agency mission goals clear and critical? Would this program better fit a different funding call/Agency? Do the deliverables critically advance the agency's mission?

Impact within the subfield:

- Are the deliverables clear?
- Are the deliverables transformative to the subfield?
- Is the importance of the problem clear and well-justified?
- Is the problem critical to solve?

Impact out-of-the field:

- Is the broader impact of the deliverables clear?
- Are the deliverables likely to make a transformative impact beyond the subfield?

During the Panel Review

Step 3) Prepare to talk about your review on the day you are assigned to be Primary or Secondary.

Primaries are responsible for starting the discussion. You can read from a document.

Secondaries then chime in with their opinion about the proposal (agreeing or disagreeing with the primary, or adding anything the Primary didn't say about the summary/strengths/weaknesses)

Then others on the panel are invited to chime in. You may comment on proposals you are not assigned Primary or Secondary.

Panel review steps

- We will examine the preliminary ranks of all the proposals.
- Then we will hear from primaries and secondaries - they will summarize the point of the proposal and the strengths/weaknesses.
- We will all discuss the merit of the proposals together
- Everyone votes again.

Assignment 12 Part B: Written Review of the Proposal

All panel comments are to be summarized and written up by the Primary under headings “Strengths” and “Weaknesses”, where the proposal summary is included under “Strengths”.

Secondaries are to send their review to the Primary at the end of the day of their panel.

Each Primary must submit a written summary as Assignment 12 on D2L (due by Mar 5 at midnight).
